

Driving Directions to Britestream Networks

Britestream Networks is located a few miles north of downtown Austin, Texas. Austin Bergstrom International Airport is about 20 miles away (about 20-30 minutes total driving time).

- Exit the airport and follow the signs to Hwy 183 (this puts you on Hwy 71 West for a very short period)
- Less than 1 mile from the airport exit, the road will fork. Stay to the right, following signs to Hwy 183 North (also known as "Research Blvd.")
- Stay on Hwy 183 North for approximately 17 miles. Then take the Oak Knoll exit
- After taking the Oak Knoll Drive exit, you will be on the freeway frontage road. Stay on this road for approximately 1/2 mile. You will see four large buildings on the right as you approach the stoplight. Pass the entry for the first two buildings.
- Shortly before the stop light, turn right into the parking lot for 12401 Research Blvd. Britestream Networks is located Building II of Research Park Plaza. We are on the second floor of this building in Suite 275.

Do not pass through the stoplight at Oak Knoll Drive. If you accidentally go past the turn into the parking lot, then turn RIGHT at the light and take the first right into the parking lot of Building I. From there, work your way around to the parking lot in front of Building II.
